Technical specifications

Available space	35'000 m ² from which 25'000 m ² connected areas
Available as of	by arrangement
Price/ m ² /Year	Rent from CHF 80 up to 150

Property description

For 100 years, the "Altenrhein Werkplatz" has been a place where the chips flew and big things were created. Once built for aircraft production, rail vehicles were built here in recent years. As of 2021, 35,000 square meters, of which 25,000 square meters are connected areas, can be individually used and flexibly subdivided. The location in the tri-border-area, not far from the highways and with its own track connection, is perfect. The halls of Altenrhein are very different in their dimensions and characteristics and can be divided flexibly and individually. Accordingly diverse possible use scenarios are designed. It has a lot of space for production, warehouse and goods handling and of course for office space.
